

# TIRES

We have definite ideas about what a tire must deliver. We only trust specialists or premium tire manufacturers like Pirelli with their development.

Product	Winter tires TW757   57-584	Pirelli Cycl-e	Pirelli Cycl-e ST	Stromer Custom TA754 by Vee Tire
<b>Brief description</b>	Developed by Stromer for the ST1   ST3   ST5 for the winter season. The tire ensures plenty of grip on wet or slippery surfaces and has outstanding puncture protection thanks to the aramid layer. ECE 75 approval for S-Pedelecs.	The Pirelli Cycl-e was developed especially for the ST5 and tailored completely to the dynamic riding style. Whether in the city or on curvy country roads, Pirelli's entire expertise comes to play in the Cycl-e.	The Pirelli Cycl-e ST was developed especially for the ST3 and therefore for driving in the city and for the daily commute. It rolls softly, is extremely reliable and ensures maximum grip on every surface and in every weather.	We developed these tires especially for the ST1. Thanks to its special tire compound, it promises plenty of grip on wet and dry surfaces and has outstanding puncture protection. ECE 75 approval for S-Pedelecs.
